NOTES TO FINANCIAL STATEMENTS

1. Organization and Summary of Significant Accounting Policies

A. Nature of Organization and Ownership

Priority Health (the Plan) is a nonprofit, nontaxable health maintenance organization owned primarily by Spectrum Health (Spectrum, the 76% shareholder), Holland Community Hospital, Munson Healthcare and Healthshare, Inc. The Plan provides coverage for medical, hospital and other health care services to its members, who are located primarily within Michigan, through contracts executed with various health care providers. Priority Health offers health coverage to commercial subscribers as a standard health maintenance organization product or a point-of-service product.

Priority Health is the 100% owner of Priority Health Government Programs, Inc, (PHGP) an HMO established effective October 1, 2002. Priority Health is the sole owner and parent of this company and reflects the operations of this company in its own financial statements in accordance with prescribed accounting practices and procedures. Priority Health Government Programs, Inc currently has over 29,000 Medicaid and MICHild members.

The agreements with certain participating providers call for reimbursement at various capitated rates or percentages of fees, less applicable member copayments, coinsurance or deductibles, on a current basis. The agreements provide for contingent reimbursement to participating providers based upon the results of operations within their defined risk pool. In the event the risk pool's utilization of medical costs is less than budgeted levels, the providers may share in the surplus, as defined in their respective agreements, and be eligible for the return of previously withheld fees. In addition, the Plan provides for a quality incentive to be paid to certain providers contingent upon achieving specified quality goals.

Priority Health's statutory-basis financial statements are prepared in accordance with accounting practices prescribed or permitted by the Michigan Insurance Bureau. Currently, prescribed statutory accounting practices are interspersed throughout state insurance laws and regulations, the NAIC's *Accounting Practices and Procedures Manual* and a variety of other NAIC publications. Permitted statutory accounting practices encompass all accounting practices that are not prescribed; such practices may differ from state to state, may differ from company to company within a state and may change in the future.

The NAIC has revised the *Accounting Practices and Procedures Manual* in a process referred to as Codification. The revised manual became effective on January 1, 2001. Codification was transitioned into the reporting required by the State of Michigan Office of Insurance and Financial Services (OFIS) beginning January 1, 2003. HMOs will follow NAIC SAP with the exceptions noted in the following excerpt from the State of Michigan filing instructions.

"The manual requires insurers to fully disclose and quantify any deviations from the practices and procedures adopted in the manual. HMOs, AFDS and Dental Service Corporations must prepare their financial statements in accordance with this guidance except as modified by this order. This change in accounting principles may have a significant financial impact to some entities. Therefore, the Commissioner is providing a transition period (a prescribed practice) for certain statements of statutory accounting principles (SSAPs) found in the NAIC Accounting Practices and Procedures Manual. The following outlines the transition of the specific SSAPs.

There is a full adoption and application of any SSAP not listed below.

SSAP 16 - Electronic Data Processing Equipment and Software

This SSAP will be adopted using the following transition scenario, whereby the aggregate amount of admitted EDP equipment and operating system software (net of depreciation) shall be limited to the following percentage of the reporting entity's capital and surplus:

Effective January 1, 2003 25%

Effective January 1, 2004 15%

Effective January 1, 2005 5%

Effective January 1, 2006, the requirements of SSAP 16 will be fully adopted.

SSAP 19 - Furniture and Equipment; Leasehold Improvements Paid by the Reporting Entity as Lessee; Depreciation of Property and Amortization of Leasehold Improvements

This SSAP will be adopted using the following transition scenario, whereby the reporting entity will be permitted to report as an admitted asset the following percentage of its book value of furniture and equipment and leasehold improvements:

NOTES TO FINANCIAL STATEMENTS

Effective January 1, 2003 85%

Effective January 1, 2004 55%

Effective January 1, 2005 25%

Effective January 1, 2006, the requirements of SSAP 19 will be fully adopted.

SSAP 84 - Certain Health Care Receivables and Receivables Under Government Insured Plans

Loans or advances to hospitals or other providers are not permitted. SSAP 84 provided a transition provision in the pharmaceutical rebates and risk sharing receivables when this accounting principle was adopted by the NAIC. SSAP 84 assumed states would adopt codification effective 2001 and therefore, NAIC transitions no longer apply effective January 1, 2003. OFIS will extend these transitions another year. For pharmaceutical and risk sharing receivables, the transition will expire on invoices prior to January 1, 2004. Entities are expected to renegotiate their contracts with pharmacy benefit managers and providers to comply with the requirements of SSAP 84 for future reporting periods.”

The cumulative effect of changes in accounting principles adopted to conform to the revised *Accounting Practices and Procedures Manual* would be reported as an adjustment to surplus as of the first of the period upon its adoption. Management has determined that, although the implementation of Codification will have some operational impact to Priority Health, the financial effect of adoption with the exceptions noted is \$0 for the year 2003. Specifically, Priority Health has redesigned its pharmacy rebates receipt frequency with its Pharmacy Rebates Manager (PRM) and required its PRM to disclose appropriate SSAP 84 information for the Plan’s timely filing. Effective with first quarter 2003, the Plan complied with SSAP 84 and the appropriate admission of pharmacy rebates. The Plan will continue to comply with all regulatory and contractual obligations.

B. Use of Estimates

The preparation of financial statements of insurance companies requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

1. All short-term investments have been classified in accordance with National Association of Insurance Commissioners (NAIC) guidelines and are stated at amortized cost for financial statement disclosure.
2. Investments consist of bonds that are carried at amortized cost. The cost of bonds is adjusted for amortization of premiums and discounts to maturity using a level-yield method. Realized gains and losses are determined using the specific identification method and are included in operations. The fair value of investments is determined based upon quoted market prices.
3. Common Stocks are Not Applicable
4. Preferred Stocks are Not Applicable
5. Mortgage loans are Not Applicable
6. Loan-backed securities as well as other asset-backed securities are held and are reported at their amortized cost.
7. The Plan uses the equity method to account for investment in and the continuing operations of the wholly owned subsidiary Priority Health Government Programs, Inc. as described in SSAP 46.
8. The Plan does not have minor ownership interests in joint ventures.
9. Derivatives are not held by the Plan and therefore this disclosure is Not Applicable.
10. and 11. Under traditional arrangements, health care costs are recognized as expenses when services are rendered including, based on historical data, an estimate of costs incurred, but not reported at the balance sheet date. Under capitation arrangements, health care costs are recognized when accruable under the providers’ respective agreements. Adjustments to previously rendered claims reserve estimates are reflected in the statement of operations in the period in which the estimates are revised. Such reserve adjustments consist of restatements of claims estimates and changes in margin associated with these estimates and could be material in the future. Given the nature of the health care costs and provider billing requirements, as defined by the participating providers’ agreements,
